

DATA MODEL AND RELATIONSHIP

PAGE 1

TASK 1

The screenshot shows the Power BI interface during the 'Build visuals with your data' task. The main canvas displays the instruction: "Build visuals with your data. Select or drag fields from the Data pane onto the report canvas." Below this, a small icon of a report card is shown.

The right-hand pane is divided into two sections:

- Visualizations**: Contains a 'Build visual' dropdown and a list of visualization icons (Bar, Line, Pie, etc.).
- Data**: Contains a search bar and a list of fields from the data model. The fields are organized by table: M2_Customers, M2_Date, M2_Geography, M2_Products, and M2_Sales. The 'Total Revenue' field is highlighted.

At the bottom of the interface, the status bar shows 'Page 1 of 1' and a zoom level of '55%'.

1 Total Cost = SUM(M2_Sales[Cost])

Build visuals with your data
Select or drag fields from the Data pane onto the report canvas.
